

RICH BRADLEY, LC, LEED AP

VICE PRESIDENT ■ ELECTRICAL DESIGNER

CAREER SUMMARY

I have been with BNA for over 20 years. I have done everything from cadd work to project management and construction administration. The beauty of working in the design and construction business is helping an owner fulfill a vision for their project and see that project come to life. Lighting design has always been especially exciting for me. Working with the architect and the design to enhance and accentuate the architecture while providing a space to comfortably work and live in is very challenging and rewarding.

CERTIFICATION

LEED (Leadership in Energy & Environmental Design) Accredited Professional, July 2004

NCQLP LC Certification
December, 2010

Liberty Elementary School

“

“No matter what people tell you, words and ideas can change the world.”
